## PERFECT STAINING

Colours and stains achieved using foil technology allowing for seamless colour matching with coloured and stained door and window frames.

Irish Oak

Golden Oak

Rosewood

We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, you can request a colour booklet.

# FINISHING TOUCHES

Pull bars, handles, knockers and letter plates are all important finishing elements of a door's design. All the products in our premium range of handles and hardware are designed to perform well, look right and feel good to the touch.
