

GRIPCORE

COLLECTION

INTRODUCING **GRiPCORE** INNOVATION

A well designed door adds beauty, style and personality to your home. So, whether you prefer a traditional or contemporary look, there is a door style to suit all tastes from our GRiPCORE Collection.

GRiPCORE technology is created from the best of traditional and modern materials, and is engineered to deliver a stronger, heavier and more robust door.

The unrivalled construction of GRiPCORE door technology creates a formidable barrier that will protect your home against the elements, deter intruders and look stunning for years to come.

A NEW GENERATION OF COMPOSITE DOORS

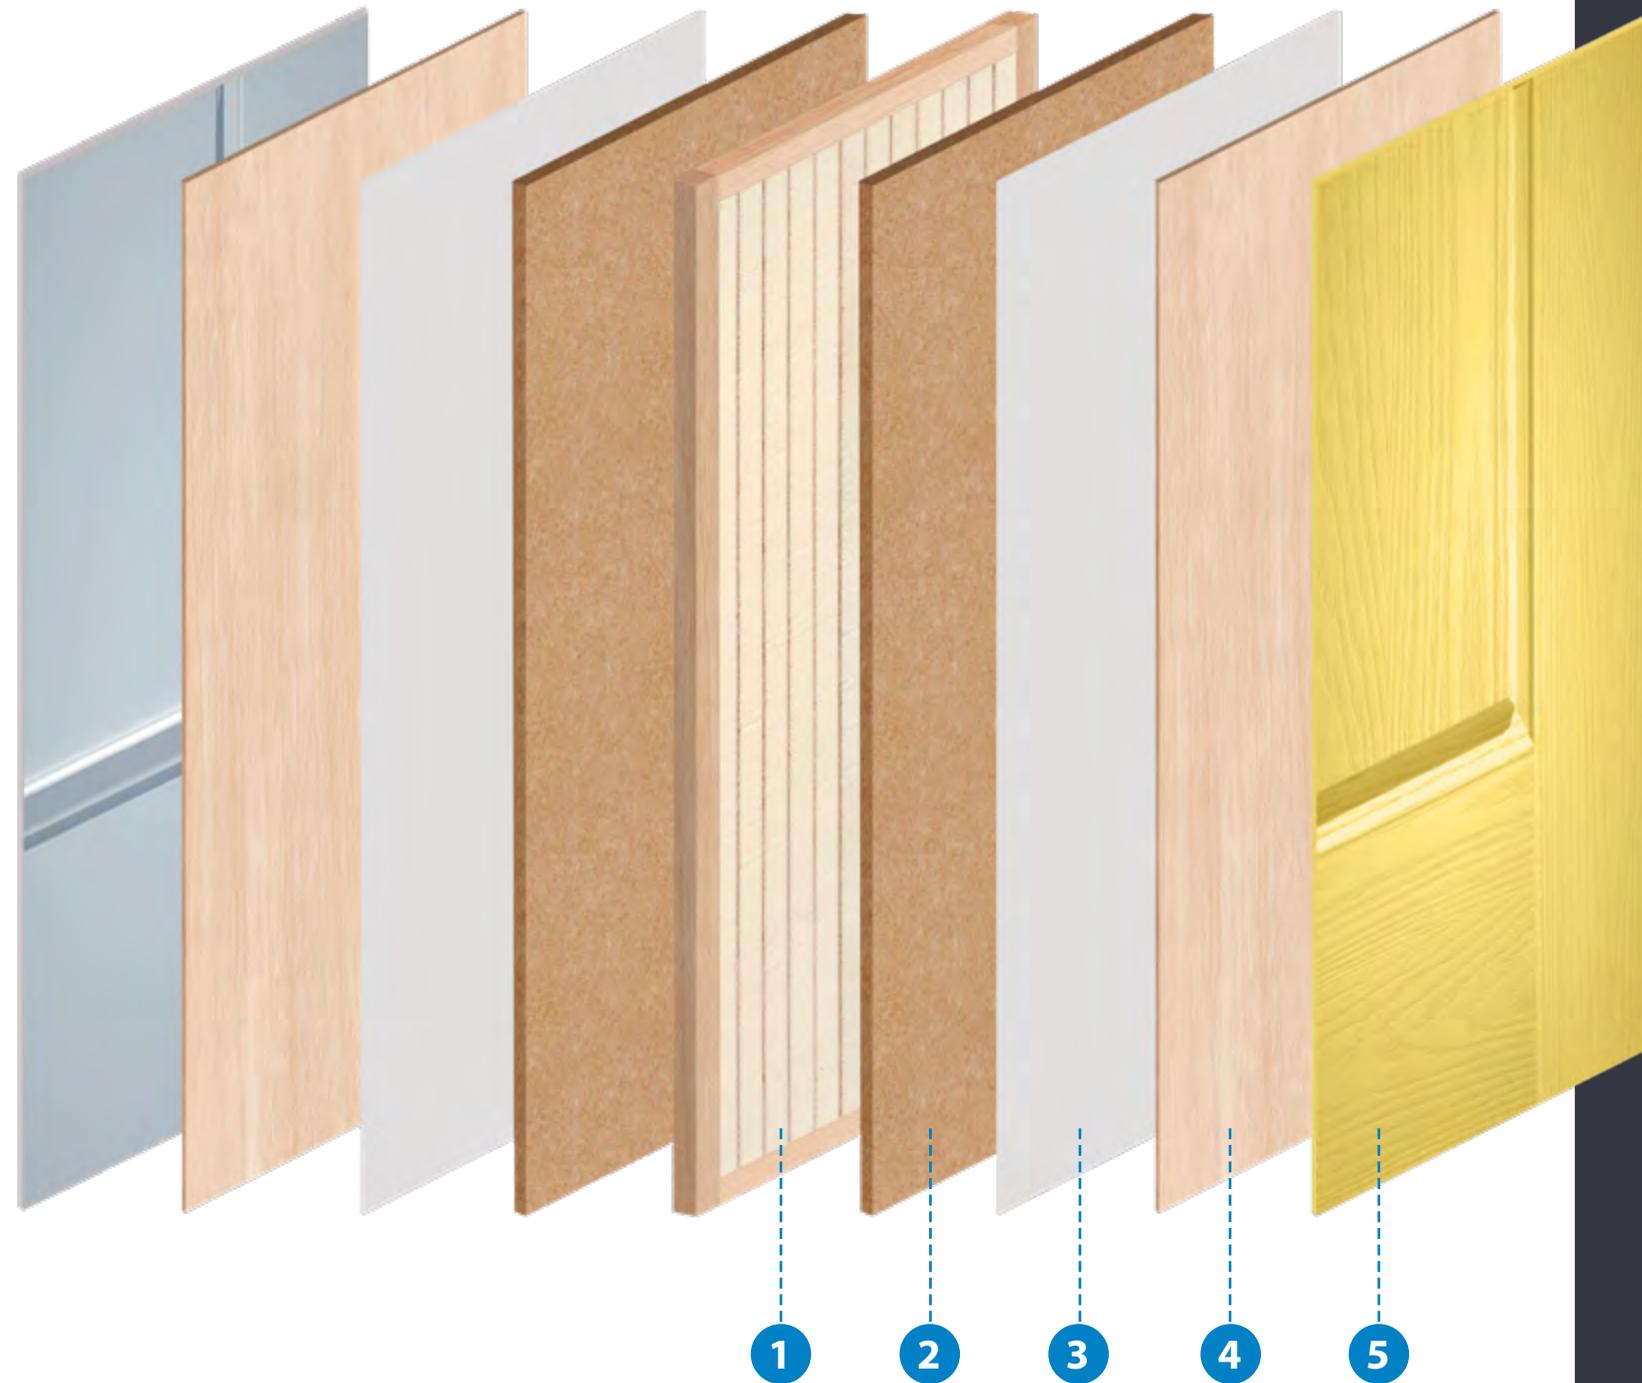

In a first for the UK market, the new GRiPCORE timber-foam core is made up of layers of PIR foam and HDF plywood, compressed between two sheets of aluminium to add extra stability and rigidity. Finished with a signature GRP skin, GRiPCORE is simply superior to anything else currently on the market.

The brand new core composition pairs PIR foam with HDF plywood and sheets of aluminium for a first in composite door engineering.

Assessed to ISO 9001 / ISO 14001 / ISO 45001 - Cert 1728

In compliance with British Standards: ISO 14001:2015, ISO 9001:2015 and ISO 45001:2018

1 PIR FOAM

Providing excellent thermal capabilities, far exceeding XPS foam as commonly used.

2 HDF sheets

This high-density product exceeds that of plywood providing brilliant rigidity and strength throughout.

3 Aluminium sheet

This is a vital layer within the door construction, it adds stability to the door but also protects against moisture infiltration.

4 Exterior grade plywood

Additional sheet for door support under the GRP skin.

5 GRP skin

The GRP skins are pressed onto the core with a unique method to ensure flawless correlation with the core.

RAL 7032

GRiPCORE

colour range

When it comes to colour, the choice is endless.

Not only can you choose from a range of standard and premium colours, but you can also find the ideal colour using our new PAiNT technology.

PAiNT allows us to match any RAL, RAL Design or BS colour or any other popular paint brands. Each door slab is painted to order for a picture-perfect finish.

This opens up a world of choice for any home!

Be sure it's secure with Kubu Smart Security.

Our range of GRIPCORE doors are built to work with multi award-winning Kubu Smart Security Sensors. The sensors, which can be purchased independently, are easy to install and are completely concealed within the door frame, so your new door can be Smart while still looking smart.

Kubu monitors the security status of your door in real time and will send you a notification via a dedicated app if it's not secure, giving you the opportunity to put things right. It also links up with Alexa, and other Smart Home products to create actions such as turning your lights on when the door is opened.

Smart Sensors

Our first-of-its-kind door sensor, fits seamlessly into your door lock that 'Works with Kubu®', remaining completely concealed to maintain the aesthetics of the door, while adding the benefits of Smart technology.

Smart Sensors

- 📶 Completely Concealed
- 📶 Calibration FREE
- 📶 Locked/Unlocked/Open/Closed/Vented
- 📶 Tamper Detection Built-In

Smart Alerts

- 📶 Instant Status Updates
- 📶 SureSecure™ Geofence Alerts
- 📶 Scheduled Notifications
- 📶 Family Sharing

Smart Controls

- 📶 Fully Smart Home Integrated
- 📶 Works with Most Major Smart-Tech Brands
- 📶 Controlled with the Kubu® Smart Phone App
- 📶 Activates Automations at the Turn of a Key

Be Sure It's Secure.

High-Security Multi-Point Lift-Lever Door Lock, Equipped for Smart Security

Boasting the largest chamfered hooks and centre deadbolt in the UK, this unique combination delivers class leading security, compression performance, and ease of use for doors manufactured from uPVC, timber and modern composite materials.

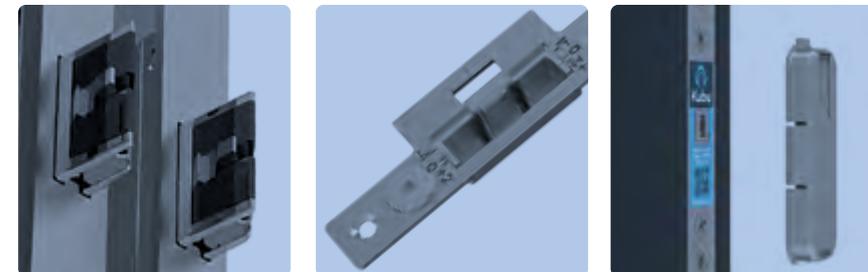

Designed to work seamlessly with Kubu Smart Security sensors, the Avantis MPL not only provides premium physical security, but industry leading Smart Security too.

High-Performance Auto-Firing Multi-Point Door Lock, Equipped for Smart Security

Ideal for heritage style doors or those with pull-bar handles, the Avantis MagnaBolt is the only AutoLock on the market developed to work with Kubu Smart Security sensor technology.

Engineered to reduce operating forces to almost zero, the clever combination of self-lubricating polymers, stainless steel, and zinc-coupled with an innovative bolt and keep design, ensures incredibly smooth operation and exceptional security.

GRIPCORE SERIES

GRIPCORE is available in three style ranges, allowing you to design a focal point for your home to reflect your personality.

DESIGNER

Looking for something with a modern and premium aesthetic? Our Designer collection features stunning models including the smooth finished Links and ever-popular Monza II.

CONTEMPORARY

Create an entrance that stands out from the rest of the street with our eye-catching Contemporary range. Bursting with intricate and architectural designs, the Contemporary collection allows for personality to shine through.

TRADITIONAL

Our Traditional collections boasts a selection of designs that are guaranteed to last the test of time. Classic, high-quality finishes that can feature stunning woodgrain detail and can be given a modern twist with our range of glass.

FEATURED GLAZING

FEATURED COLOURS

PATiNA only available in Monza II.

PAiNT allows us to colour match anything. With our high-performance paint technology we can offer any colour door you desire.

For full glass availability, please view the availability chart on pages 58-59.

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure, so it's as close as possible to our paint when applied to the doors. Due to the nature of the products it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept liability for this for whatever reason. To ensure that right colour for your door, we recommend requesting a colour booklet of our named colours and using an official RAL booklet for any RAL colour.
